

2012 International Congress of Neuroethology

ICN is anticipating funding that will enable us to provide registration waivers for a limited number of students and postdoctoral fellows who are finding it financially difficult to attend the 2012 meeting at the University of Maryland.

Applicants for these waivers must meet the following requirements:

- 1) Must be a student or postdoctoral fellow at the time of application.
- 2) Must be a member of ISN at the date of award of the waiver.
- 3) Must be the first and presenting author of an abstract that has already been submitted for the meeting.

To apply for a waiver please go to: <https://www.surveymonkey.com/s/ICN2012>.

For best consideration, please apply no later than May 7, 2012.

We will attempt to let applicants know if they have received a waiver before the June 1 early meeting registration date. Students and postdocs who have already registered are still eligible to get a waiver, and, if awarded, funds paid will be reimbursed.
